

Thompson Public Schools "Tools for Schools" Indoor Air Quality

The mission of the Thompson Public Schools' Indoor Air Quality Team is to improve and maintain good indoor environmental quality; thereby providing a sense of comfort, health and well being in a safe learning environment for all school occupants." *December 2006*

The **Indoor Air Quality** team would like to take this opportunity to thank our teaching and administrative staff for their support, cooperation and enthusiasm regarding the improvement of our learning and working environment.

Without your assistance we would not have been able to make the fantastic progress that we have to this point.

Thank you !

**"DE-CLUTTER"
DAYS ARE
COMING
DEC 19
THROUGH
DEC 21!**

**PLEASE CHECK
YOUR AREAS
AND TOSS
THAT OLD
JUNK! LET'S START WITH A
FRESH SPACE IN 2007!**

Please email Bill Birch or Barbara Lesniewski with any questions or concerns you may have regarding Indoor Air Quality.

COOL WINTER TIPS FOR TEACHERS

Please keep the ventilation system spaces clear of books, desks, decorations, etc. The system cannot operate correctly if it is covered by objects.

Please encourage your students to do the simple things that will help maintain the cleanliness of our schools.

- Pick up discarded papers in the halls.
- Do not litter on the school buses.
- Encourage an environment of pride!

**Make Hand-Washing
Hygiene Part of
Your Teaching Day!**

Got aBUG?

Help to slow the spread of germs by encouraging your students to sing!

The CDC recommends that when you wash your hands -- with soap and warm water -- that you wash for 15 to 20 seconds. That's about the same time it takes to sing the "Happy Birthday" song twice!
